

More...
...interactivity,
...motivated participants,
...qualified feedback,
...and measurable results
for your event.

The software solutions of G+B Interactive® can help you achieve this.

You need to manage several lectures at the same time

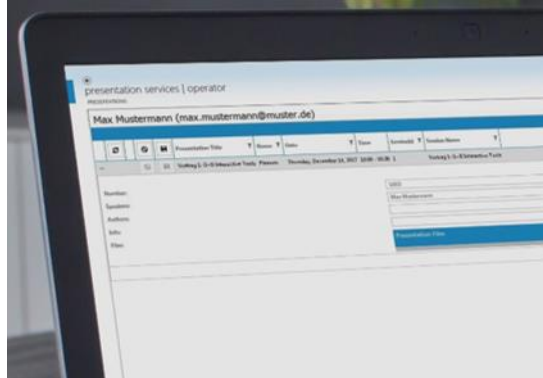

The software tool **PRESENTATION** will help you:

- Benefit from the central control and presentation
- Run a smooth event reliably
- Focus on the highest level of security for your data and content
- Both the function and design of the tool can be adapted to your requirements

PRESENTATION at a glance

Play it safe – digital, simple, stress-free

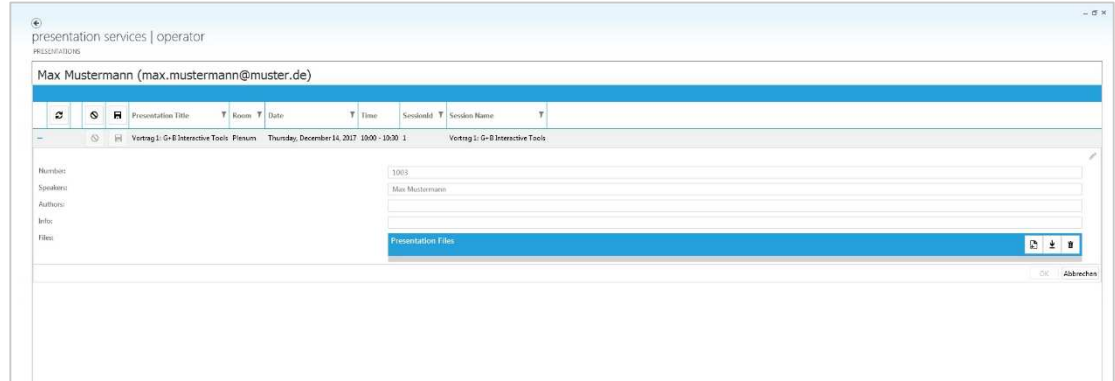

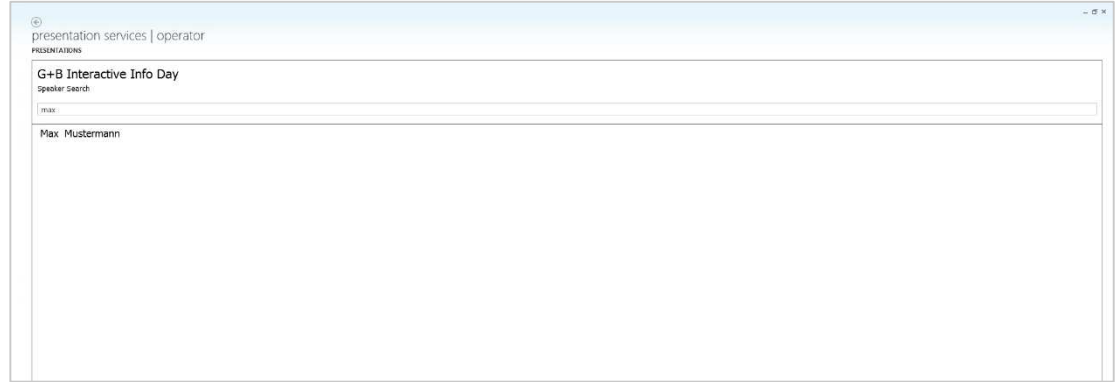

- Create the best conditions for a successful event. Time pressures, uncertain event structures and technical mishaps thus become a thing of the past with PRESENTATION.
- We manage and test your speakers' presentations in advance and supply you with an accurate and precise transmission of all talks from a central database.
- All common formats such as PDF, PPT and Prezi are supported. Keynote speeches on request.
- We guarantee absolute security for your data and presentation content by means of continually updated encryption techniques.

PRESENTATION at a glance

View of the user interface – discover PRESENTATION from the point of view of the speaker

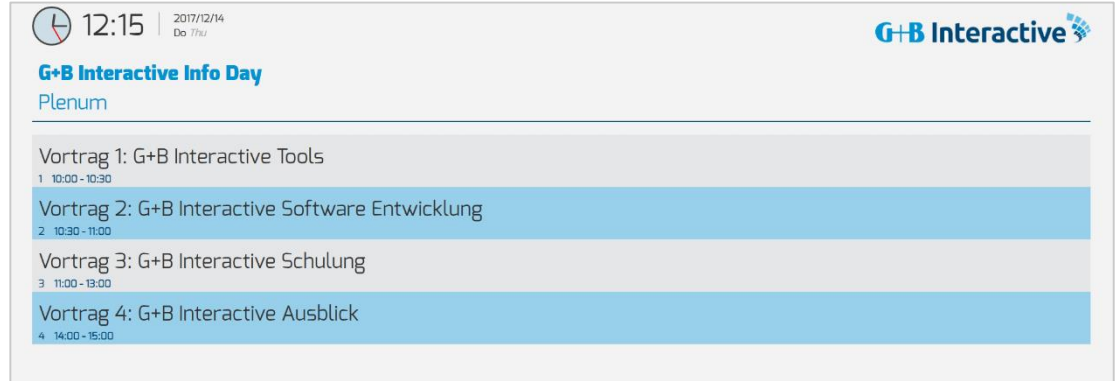

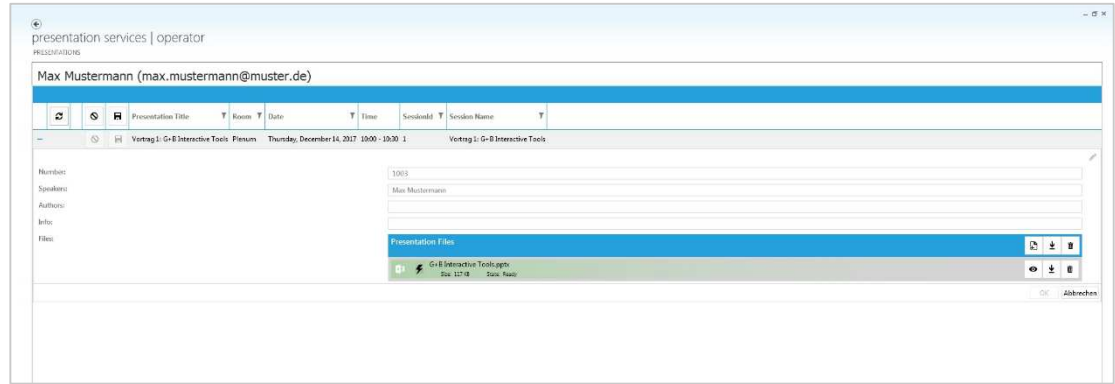

- If you have not yet submitted your presentation in advance, you can do this on the spot in the presentation room.
- Here the first step is to seek out your already-registered name, or to add it manually.
- In a second step, you can upload your presentation and allocate it to your registered data.

PRESENTATION at a glance

View of the user interface – discover PRESENTATION from the point of view of the speaker

- If the upload was successful, your presentation is accessible to you as a speaker.
- You can quickly and straightforwardly retrieve your presentation in your lecture theatre. With one click it opens and starts automatically. The presentation can begin.
